### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Applicant's response received February 22, 2006 has been found persuasive. The closest prior art is considered to be Tokito et al. (US 2003/0091862 A1), which teaches polymeric phosphorescent compositions. Tokito et al. fails to teach or to render obvious the very specific combination of a conjugated polymeric backbone, plurality of first-type functional groups, and a plurality of first-type inert spacer groups joined together and coordinated to a metal as required. Tokito et al. especially fails to teach the combination of a conjugated backbone and first-type spacer groups comprising alkyl chains of 4 to 12 carbon atoms. Accordingly, claims 1-9, 11-22, 24-36 and 38-41 are allowed.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
